2008

The 18-hole golf course in Bjurholm is unique. It is located in an undulated landscape with some quite steep slopes. The holes are in general not very long, but strategically challenging.

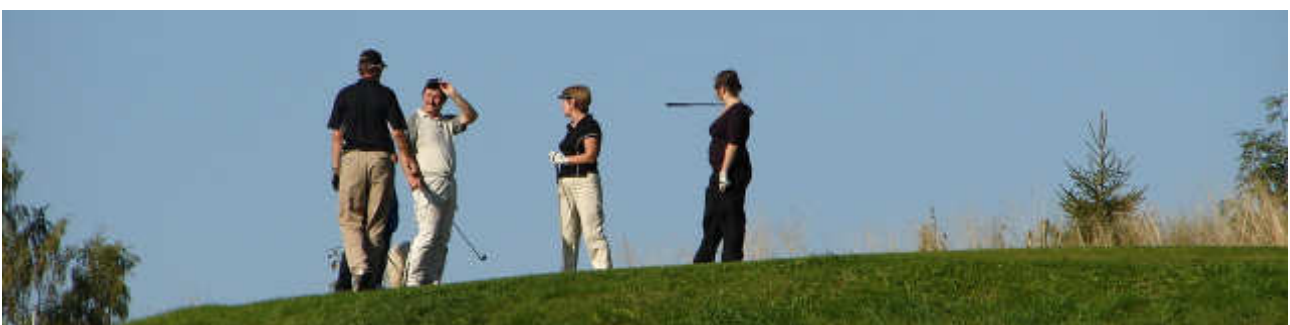

Göran Zachrisson, the most renowned golf expert in Sweden, called Bjurholm "one of the five most beautiful 9-hole golf courses in the world". Since 2005 there are 18 holes, and the new holes are at least as good as the old ones.

The most recent information can be found on the web site. The information is mainly in Swedish, but most people in Sweden speak an understand English quite well.

Do not hesitate to ask us if there are any questions,.

We want you to enjoy your stay in Bjurholm, and our wonderful golf course.
